Overall Length:

16.000 inches

Overall Height:

10.000 inches

Overall Width:

15.250 inches

Current Rating:

1.000 amperes and 10.000 amperes

Special Features:

12% recommended concentration of phosphoric acid; 70-85 degrees f process temperature; 30-40 minutes process duration; 20-250 ml/minute acid flow rate; uncontrolled water flow rates; self-sealing color-coded polypro w/viton seals; acid-proof fittings; polyethylene color-coded; 5-ft hoses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
