Overall Height:

45.0 inches

Overall Width:

28.0 inches

Accessory Components And Quantity:

Color coded adapter/coupler set - 1; psx-2a power steering exchanger with control wand

Current Rating:

15.0 amperes

Voltage In Volts And Current Type:

12.0 dc

Product Name:

Atx-2ps fluid exchange combination

Special Features:

Operating temperature range for the atx and psx-2a is from plus 32 degrees to plus 122 degrees fahrenheit; atx unit has two tanks - 1 for the old fluid and one for the new fluid with capacity of each tank is 26 quarts; psx-2a is attached to the atx case and has two tanks - 1 for old fluid and 1 for new fluid with the capacity of each tank is 1 gallon; atx has a positive displacement gear pump; psx-2a has two positive displacement diaphragm pumps one for drawing the old fluid out and on for dispensing the new fluid

Functional Description:

Automatic transmission and power steering fluid exchanger to remove old used fluid and store it then dispense fresh new fluid; for automotive maintenance

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
