Maximum Operating Temp:

160.0 degrees fahrenheit

Design Type:

Ultrasonic

Heating Method:

Electrically

Tank Capacity:

17.0 gallons

Ultrasonic Generator:

Included

Product Name:

Ultrasonic benchtop parts washer

Special Features:

Choose from three tank sizes for parts up to 12 inches w x 16 inches l, bonding of transducers is guaranteed for 10 years, all units have 1/2" drain fitting, lift-off cover with handle, adjustable thermostat optimizes tank temperature of individual parts up to 160 degrees f (71 degrees c), sound-deadening insulation package, illuminated controls for ultrasonics and heater function

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T276-e
