Overall Length:

9.000 inches

Shank Shape:

Hexagonal

Cutting Edge Width:

Between 1.000 inches and 1.062 inches

Shank Width Across Flats:

0.875 inches

Features Provided:

Nonsparking and nonmagnetic

Environmental Attribute Code:

Plastics removal in the marine environment (prime) product

Material:

Copper alloy

Specification Data:

05047-asme b107.410/b107.48 professional/industrial association standard

Specification Or Standard:

1 type and 2 class

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A533x0
