**Overall Length:**

8.062 inches

**Wrenching Surface Size:**

0.500 inches second end

**Features Provided:**

Nonmagnetic and nonsparking

**Wrenching Surface Shape:**

12 point both ends internal

**Material:**

Copper alloy

**Style Designator:**

Shallow angular offset double head

**Specification Data:**

05047-asme b107.100 professional/industrial association standard

**Specification Or Standard:**

1 type and 1 class

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A527y0
