Overall Length:

1.625 inches

Outside Diameter:

1.188 inches

Drive Surface Size:

0.250 inches both ends

Drive End Shape:

Square second end external

Special Features:

Spinner type

Material:

Steel

Surface Treatment:

Chromium

Style Designator:

External-internal

Specification Data:

05047-asme b107.10 professional/industrial association standard

Specification Or Standard:

2 type and 3 class and b style

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A102a0
