Wrenching Surface Size:

1.000 inches single end and 1.001 inches single end

Drive Surface Size:

1.507 inches single end and 1.508 inches single end

Wrenching Surface Shape:

Round single end internal

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/6, t4 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A102a0
