Overall Length:

15.000 inches

Overall Width:

1.656 inches

Head Thickness:

1.313 inches

Torque Capacity:

5000.0 inch-pounds

Drive Surface Size:

0.500 inches single end

Features Provided:

Reversible ratchet

Drive End Shape:

Square single end external

Environmental Attribute Code:

Plastics removal in the marine environment (prime) product

Special Features:

80 gear teeth

Material:

Steel handle

Surface Treatment:

Chromium

Style Designator:

Ratchet

Specification Data:

81343-sae as4283 professional/industrial association standard

Specification Or Standard:

1 type and 2 class and b style

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A102a0
