Overall Length:

11.500 inches

Large End Head Thickness:

0.188 inches

Small End Head Thickness:

0.188 inches

Wrenching Surface Size:

2.500 inches second end

Torque Capacity:

50.0 foot-pounds

Wrenching Surface Shape:

Hexagon both ends internal

Material:

Steel

Surface Treatment:

Chromium and nickel and oxide

Style Designator:

Double head

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A527y0
