Overall Length:

2.500 inches

Overall Width:

2.000 inches

Wrenching Surface Size:

0.724 inches single end

Features Provided:

Nonsparking

Wrenching Surface Shape:

Hexagon single end internal

Special Features:

Polyhexamethylene adipamide

Material:

Plastic

Material Specification:

L-p-410 federal specification single material response

Style Designator:

Expansion

Departure From Cited Document:

As modified by material

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A527y0
