Overall Length:

2.750 inches

Overall Height:

0.630 inches

Overall Width:

0.760 inches

End Application:

Aircraft propeller controls

Product Name:

Holder, sleeve

Functional Description:

Used to prevent differential gear train from rotating during assembly

Reference Data And Literature:

To 3ha2-7-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
