End Application:

Aircraft propeller controls

Reach Length:

10.375 inches

Product Name:

Puller, mechanical, ni 10-24

Special Features:

10.000in lg; 1.500in dia

Functional Description:

Used to remove differential gear train shaft

Reference Data And Literature:

To 3ha2-7-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T294-m
