End Application:

Aircraft propeller controls

Reach Length:

3.000 inches

Product Name:

Puller, mechanical

Special Features:

Approx 8.500in long

Functional Description:

Used to remove backup and feather actuating valves

Reference Data And Literature:

To 3ha2-7-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T294-m
