End Application:

F-16a/b aircraft rudder servoactuator assembly

Operation Method:

Nonimpact

Product Name:

Rudder piston rod assembly bullet

Special Features:

Thin wall tube w/blended starting taper

Functional Description:

Used to install sealed seal end gland assembly on primary piston rod

Material:

Stainless steel

Reference Data And Literature:

To 9h2-4-240-3

Shape:

Bullet

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T294-m
