Overall Length:

1.000 inches

Cubic Measure:

1.000 cubic inches

Drive End Shape:

Hexagon single end external

Special Features:

6 equally spaced pins recessed incounter bore

Functional Description:

Used to remove air check valve cap

Material:

Steel

Surface Treatment:

Oxide

Style Designator:

Tubular pin

Specification Data:

07482-6205 manufacturers specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A102a0
