Overall Length:

2.000 inches

Outside Diameter:

2.000 inches

End Application:

Aircraft model av-8b

Wrenching Surface Size:

0.500 inches single end

Torque Capacity:

75.0 foot-pounds

Wrenching Surface Shape:

Square single end external

Functional Description:

Adapts torque wrench to gland nut of nlg actuator

Material:

Steel

Unpackaged Unit Weight:

1.000 pounds

Style Designator:

Socket to socket

Supplementary Features:

Two piece, one closed end tube w/four tangs at open end, second is a ring; corrosion resistant

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A102a0
