Overall Length:

3.500 inches

End Application:

Aircraft model av-8b

Wrenching End Outside Diameter:

1.000 inches

Drive End Outside Diameter:

1.000 inches

Torque Capacity:

Between 15.0 foot-pounds and 20.0 foot-pounds

Wrenching End Head Thickness:

0.750 inches

Drive End Head Thickness:

0.750 inches

Functional Description:

Adapts torque wrench to gland nut of nlg door hydraulic actuator

Material:

Steel and plastic polyamide

Unpackaged Unit Weight:

0.500 pounds

Style Designator:

Box end

Supplementary Features:

Corrosion resistant finish

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A102a0
