Overall Length:

2.000 inches

Diameter:

4.880 inches

Operation Method:

Nonimpact

Special Features:

Driver, bearing; matl: tool steel type 06 per specification qq-t-570; finish: black oxide per specification mil-c-13924, class i; heat treatment: quench and temper per specification mil-h-6875 to rockwell c 40-50; 3.500 inside dia; one end tapered at 15.5 degrees by 0.620 long; an outer edge of 1.060 long is knurled, located 0.120 from straight end; 2 places chamfered, 0.060 long by 45 deg; used on m1e1-1mp

Material:

Steel

Shape:

Round tapered

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T294-m
