Overall Length:

1.500 inches

Diameter:

1.800 inches

Operation Method:

Nonimpact

Special Features:

Driver, bearing; matl: tool steel type 06 per specification qq-t-570; finish: black oxide per specification mil-c-13924, class i; heat treatment: quench and temper per specification mil-h-6875 to rockwell c 45-50; 1.000 inside dia; one end tapered at 13.3833 degrees by 0.380 long; an outer edge of 0.810 long is knurled, located 0.120 from straight end; straight end chamfered, 0.060 long by 45 deg; used on m1e1-1mp

Material:

Steel

Shape:

Round tapered

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T294-m
