Overall Length:
1.500 inches
Diameter:
1.800 inches
Operation Method:
Nonimpact
Special Features:
Driver, bearing; matl: tool steel type 06 per specification qq-t-570; finish: black oxide per specification mil-c-13924, class i; heat treatment
quench and temper per specification mil-h-6875 to rockwell c 45-50; 1.000 inside dia; one end tapered at 13.3833 degrees by 0.380 long;
an outer edge of 0.810 long is knurled, located 0.120 from straight end; straight end chamfered, 0.060 long by 45 deg; used on m1e1-1mp
Material:
Steel
Shape:
Round tapered
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T294-m
