Overall Length:

1.500 inches

Diameter:

1.750 inches

Operation Method:

Nonimpact

Special Features:

Driver, bearing; matl: tool steel type 06 per specification qq-t-570; finish: black oxide per specification mil-c-13924, class i; heat treatment: quench and temper per specification mil-h-6875 to rockwell c 45-50; 1.290 inside dia; both ends chamfered, 0.120 long by 45 deg; an outer edge of 0.880 long is knurled, located 0.250 from one end; used on m1e1-1mp

Material:

Steel

Shape:

Round

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T294-m
