Overall Length:

2.250 inches

Diameter:

2.000 inches

End Application:

C17 acft

Operation Method:

Nonimpact

Functional Description:

Used to remove lip seal from on board inert gas generating system air separation modules

Material:

Aluminum

Shape:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T294-m
