End Application:

H-53 acft

Functional Description:

Used to attach fluid fittings onto aircraft system tubing

General Description:

Matl: steel; hand pump hydraulic powered; 5/8 in. Through 1.0 in. Tube capacity; maximum operating pressure 6000 psig; develops tensile load on draw bolt of 84,000 lbs at pressure of 6000 psig; piston effective area 14.0 sq inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
