End Application:

H-53 acft

Functional Description:

Used to attach fluid fittings onto aircraft system tubing

General Description:

Matl: steel; hydraulic hand pump powered; 1/4 in. To 1/2 in. Tube capacity; develops draw bolt tensil load of10, 300 lbs at pressure of 3000 psig; piston effective area 3.44 squar inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
