Overall Length:

6.000 inches

Diameter:

2.240 inches

Operation Method:

Impact

Diameter Across Flats:

1.945 inches

Special Features:

Composition, steel conforming to ams-5659 or ams-5643-heat treated to condition h1025, shouldered cylindricalbearing, driver

Material:

Steel

Shape:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T294-m
