End Application:

Aim-120a

Functional Description:

The adapter is a single ended semi-circular spanner with an inside diameter of 0.890 inch and an outside diameter of 1.014 inch. The length is 4.813 inches. The adapter has four tangs, which extend 0.100 inch from one end of the adapter, fit into the connector's slots. The other end of the adapter has a 1/4 inch female hex drive attachment point for a torque or other drive wrench. A medium knurl 0.813 inch wide is used at the drive point end to facilitate turning the adapter by hand. The adapter is heat treated to Rockwell 50/54 hardness and finished with black oxide.
