Overall Length:

4.000 inches

End Application:

F-15a-e

Operation Method:

Nonimpact

Special Features:

A thin walled cylinder with an outside taper increasing from approximately 1 inch to 1.3125 inch diameter and 4 inches long; made of high density, impact resistant plastic 1-1/2"d x 4"l

Functional Description:

Used to expand the channel seal to fit in the ring grooves of the control piston

Material:

Plastic

Shape:

Bullet

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T294-m
