**Overall Length:**

13.300 inches

**Diameter:**

4.500 inches

**End Application:**

F117-pw-100 aircraft eng

**Operation Method:**

Impact

**Special Features:**

Seating drift

**Functional Description:**

Used to insert/seat the high pressure turbine rear balance bearings on the arbor journal during assembly

**Material:**

Steel

**Shape:**

Cylindrical

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T294-m
