Overall Length:

13.300 inches

Diameter:

4.500 inches

End Application:

F117-pw-100 aircraft eng

Operation Method:

Impact

Special Features:

Seating drift

Functional Description:

Used to insert/seat the high pressure turbine rear balance bearings on the arbor journal during assembly

Material:

Steel

Shape:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T294-m
