End Application:

F117-pw-100

Product Name:

Riveting anvil

Special Features:

0.8 in diameter x 2.5 in length; name on dwg anvil; backup-hp turbine, 1st stage blade rivet, orbital riveting; required to provide positive pressure against the rivet head during the riveting operation of the first stage turbine blades

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T294-n
