**Overall Length:**

4.000 inches

**Diameter:**

2.900 inches

**End Application:**

F117-pw-100

**Operation Method:**

Nonimpact

**Special Features:**

Aka pusher

**Functional Description:**

Used to install the roller bearing inner race onto the spur end of the input gearshaft

**Material:**

Steel

**Shape:**

Cylindrical

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T294-m
