Overall Length:

4.000 inches

Diameter:

2.900 inches

End Application:

F117-pw-100

Operation Method:

Nonimpact

Special Features:

Aka pusher

Functional Description:

Used to install the roller bearing inner race onto the spur end of the input gearshaft

Material:

Steel

Shape:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T294-m
