| Overall Length:                                                                                  |
|--------------------------------------------------------------------------------------------------|
| 110.750 inches                                                                                   |
| Torque Indicating Mechanism:                                                                     |
| Dial                                                                                             |
| Torque Capacity:                                                                                 |
| Between 0.0 foot-pounds and 2000.0 foot-pounds and 0.0 meter-kilograms and 280.0 meter-kilograms |
| Torque Scale Graduation:                                                                         |
| 40.00 foot-pounds                                                                                |
| Torque Signal Method:                                                                            |
| Dial indicator and audible and visual                                                            |
| Drive Surface Size:                                                                              |
| 1.000 inches single end                                                                          |
| Drive End Shape:                                                                                 |
| Square single end external                                                                       |
| Special Features:                                                                                |
| Dual scale; 5 mkg graduations; includes 5 extension handles                                      |
| Material:                                                                                        |
| Steel                                                                                            |
| Surface Treatment:                                                                               |
| Chromium                                                                                         |
| Style Designator:                                                                                |
| Rigid frame center drive w/detachable arms                                                       |
| Supplementary Features:                                                                          |
| Industrial quality (iq) tools program item                                                       |
| Shelf Life:                                                                                      |
| N/a                                                                                              |
| Unit Of Measure:                                                                                 |
|                                                                                                  |
| Demilitarization:                                                                                |
| No                                                                                               |
| Fiig:                                                                                            |
| A102a0                                                                                           |
|                                                                                                  |
|                                                                                                  |
