End Application:

F117-pw-100 eng

Operation Method:

Nonimpact

Product Name:

Pusher, puller

Special Features:

Consists of a steal cylinder body, a cylindrical spacer, sperical washer, 2 threaded washers, 2 hex head cap screws, hex nut and a plastic container

Functional Description:

Used to remove or install gearbox and oil tank mount pins

Shape:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T294-m
