Overall Length:

6.000 inches

Diameter:

1.000 inches

End Application:

Pacer dawn

Usage Design:

Used to position or start a needle bearing within a hydraulic motor housing bearing bore

Operation Method:

Nonimpact

Product Name:

Tool installation, needle bearing

Material:

Steel

Shape:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T294-m
