Overall Length:

2.000 inches

Diameter:

0.520 inches

End Application:

Pacer dawn

Usage Design:

Used to compress a channel seal back to its original diameter after stretching, to install it on a balanced piston

Operation Method:

Nonimpact

Product Name:

Compression tool, seal

Material:

Steel

Shape:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T294-m
