Overall Length:

2.500 inches

End Application:

F-16

Wrenching Surface Size:

0.0625 inches single end

Wrenching Surface Shape:

Round single end internal

Product Name:

G-module adjusting tool

Functional Description:

Used to assemble the g-modulating valve assembly during repair of the oxygen regulator, this is a two piece tool consisting of a 1/16 inch slot on one end with a collar over the slotted end, allowing the slot to mate the g-module adjustment and the collar prevents the tool from slipping off

Material:

Steel comp 304

Material Specification:

Sae-ams-qq-s-763 federal specification single material response

Reference Data And Literature:

Serd 47061

Style Designator:

Straight

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A102a0
