End Application:

Turbo prop engines (t58), compressor, rearframe-16

Product Name:

Puller, outer race, no.2 bearing, aircraft

Special Features:

Puller has one long leg to accomadate the anti rotation tab in one of the grooves, due to new bearing design. Long leg can easily be rotated to handle both old and new configurations.

Functional Description:

3this item updated from p/n 21c4024g001 to p/n 21c4024g002 by incorporation of sec-5486. The present no.2 bearing outer race has 3 grooves in the outer race which allows the three arms of the puller to engage the forward face of the outer race.
