End Application:

F101 and 102 ge engines

Product Name:

Tool assembly, install/remove - fan to lp turb coupling nut

Special Features:

Consists of 2 major sub assemblies: counter torque plate and torque tubes; size: 30in x 5in x 15in; 50 lbs

Functional Description:

Used to install/remove fan motor from the low pressure turbine rotor coupling nut

Reference Data And Literature:

Serd 5111

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A102a0
