Overall Length:

6.000 inches

End Application:

Support equip for f/a-18f acft

Usage Design:

Install seals in valve body

Operation Method:

Impact

Criticality Code Justification:

Agav

Product Name:

Pusher, seal

Special Features:

Width - 2.500 inches; height - 2.500 inches; cubic feet - 0.02170139; net weight - 3 lbs.

Material:

Steel

Shape:

Tapered

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T294-m
