End Application:

F/a18-e/f hydraulic servocylinder

Wrenching Surface Size:

3.104 inches first end

Torque Capacity:

Between 8.0 foot-pounds and 10.0 foot-pounds

Hardness Rating:

50.0 rockwell c

Wrenching Surface Shape:

Hexagon first end external

Product Name:

Inavy)adapter torque wrench

Special Features:

Hex end 2.70 in hole prov a lip to act as stop on retain

Functional Description:

Apply torque to retainer

Material:

Steel comp 4340

Surface Treatment:

Oxide

Supplementary Features:

Opposite end .50 in square hole for standard torque wren

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A102a0
