Overall Length:

0.100 inches

Diameter:

2.500 inches

End Application:

Fa18-e/f hydraulic servocylinder

Usage Design:

Fill aileron cyl's sharp edges to protect piston seal

Product Name:

Tool installation, a

Special Features:

Made of nylon matl; has a 30 degree cut through it for ease

Functional Description:

Protects piston seal during install and removal

Supplementary Features:

Tech guide a1-412er-140-030

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T294-m
