End Application:

Support equipment for f/a-18 e/f aircraft

Nonsupply Items And Quantities:

Torque adapter 1; torque wrench 1; slave "c" washers as required

Criticality Code Justification:

Agav

Product Name:

Torque set, rod end

Special Features:

Used to install/remove rod end subassembly of servocylinder; interfaces with rod end on the flats where bearing is located; torque adapter has 1/2 in. Female drive to accomodate common torque wrench; slave "c" washers are installed during removal, they are slightly thinner to relieve enough pressure to allow removal, they are larger in diameter so that bushing cannot be installed over them - preventing use of wrong washers during installation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
