Overall Length:

14.000 inches

Outside Diameter:

1.000 inches

End Application:

F110-ge-100, 129, 400 and f118-ge-100

Drive Surface Size:

0.250 inches single end

Drive End Shape:

Square single end external

Special Features:

Used to torque nuts at the combustor diffuser nozzle and high pressure turbine shroud support interface

Material:

Steel

Style Designator:

Rigid

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A102a0
