Overall Length:

0.500 inches

Overall Height:

0.200 inches

Overall Width:

0.200 inches

End Application:

F110-ge-129

Product Name:

Extension, nozzle-accessory gearbox

Special Features:

Used with danville engineering model e microetcher (gfe), nozzle extension uses an additional carbide microetcher nozzle and machined steel coupling sleeve

Functional Description:

Used to add length to microetcher etching needle to reach deeper housing cavities

Reference Data And Literature:

Serd 6125

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
