Center Hole Diameter:

38.1 millimeters

Extended Height:

54.0 millimeters

Retracted Height:

42.0 millimeters

Unit Type:

Self-contained

Load Capacity:

150.0 tons

Pump Type:

Single

Special Features:

Max operating pressure 700 bar; 12 mm stroke; 5-150 ton capacity; collapsed ht 42 mm; extended ht 54 mm; single acting spring return; corrosion resistant; 8x55 mm outside diameter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A538w0
