Overall Length:

15.531 inches

Wrenching Surface Size:

0.125 inches first end

Drive Surface Size:

1.125 inches both ends

Features Provided:

Off the point wrenching

Head Angle:

15.0 degrees

Wrenching Surface Shape:

Flat second end external

Wrenching End Offset Angle:

15.0 degrees

Drive End Shape:

Flat second end internal

Material:

Steel

Surface Treatment:

Chromium

Style Designator:

Offset

Specification Data:

81343-sae as954 professional/industrial association standard

Specification Or Standard:

2 type or 4 class or a style

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A527y0
