**Overall Length:**

2.000 inches

**End Application:**

F/a-18c, and f/a-18 an/apg-73 radar set rack

**Wrenching End Opening Depth:**

0.750 inches

**Product Name:**

Socket, socket wrench, mms mounting ball

**Special Features:**

Description: socket 0.75 inches deep x 2.000 inches long with chamfer removed.3.0 ounce steel with chrome plating six point, 0.500 inch deep well socket

**Functional Description:**

Apply 115 to 120 inch pounds to motion sensor subsystem (mss) wra mounting locating ball (p/n: 5100097) when installed or removed locating ball as required

**Material:**

Steel

**Surface Treatment:**

Chromate

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A102a0
