Overall Length:

2.000 inches

End Application:

F/a-18c, and f/a-18 an/apg-73 radar set rack

Wrenching End Opening Depth:

0.750 inches

Product Name:

Socket, socket wrench, mms mounting ball

Special Features:

Description: socket 0.75 inches deep x 2.000 inches long with chamfer removed.3.0 ounce steel with chrome plating six point, 0.500 inch deep well socket

Functional Description:

Apply 115 to 120 inch pounds to motion sensor subsystem (mss) wra mounting locating ball (p/n: 5100097) when installed or removed locating ball as required

Material:

Steel

Surface Treatment:

Chromate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A102a0
