Overall Length:

6.875 inches

Drive End Shape:

Round single end external

Product Name:

Connector wrench, torque

Special Features:

Fits 8 and 8s shell size; drive end has 1/2-28 unef external threads

Material:

Aluminum alloy

Surface Treatment:

Nickel

Style Designator:

Rigid frame end drive

Specification Data:

81349-mil-dtl-5015 government specification and 81349-mil-c-83723 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A102a0
